

About Project Financing for IT Projects

Concept

- All inclusive financial facility for Information Technology projects
- Services, Hardware & Software, IBM and non-IBM components
- Funding over multiple time periods
- Multi-year customised agreements
- Single periodic payments to IGF for all components
- Fixed or indexed rate options

Benefits to our Clients

- Facility built according to client requirements
- Conserves capital
- Aligns repayment streams more closely with project benefits
- Facilitates control and tracking of project costs
- Improves budget management with predictable costs
- Competitive source of funding
