ABOUT ORACLE FINANCING

- Twenty years of experience
- 7,000+ customers
- 50+ countries
- Fortune 1000 to fast-growing companies
- All major global industries
- Commercial and government

Globalization. Simplification. Standardization. Automation. Innovation. These five principles underlie everything we do at Oracle—including how we enable our customers to acquire Oracle, solutions built on Oracle technology, and related products and services.

Financing and Leasing Solutions from Oracle

Oracle Financing provides financing and leasing solutions to end user customers. We facilitate direct and indirect acquisition of all Oracle products and services, solutions built on Oracle technology, and related products and services.

Whether you purchase direct from Oracle or through an Oracle partner, you can defer payments for your total solution or solution components using a single payment structure from Oracle.

Extending the Value of Your Investment

Introducing time to your IT acquisition strategy allows you to approach each acquisition as an investment decision and not just a purchasing one. You can use our payment solutions to preserve capital for other investments, leverage alternative funding, or simply harness the purchasing power of future budgets. Whatever your objective, financing and leasing lets you affordably acquire the products and services you need, without depleting your cash reserves.

Competitive, Comprehensive Payment Solutions

Our payment solutions are competitive, comprehensive and flexible. We make it easy for you to quickly acquire what you need. And because every business is a little different, we can customize a payment structure to fit your specific requirements, mapping payments to the benefits you receive—so you immediately start realizing the value of your investment.

Getting Started

Customers can use Oracle financing, leasing and custom payment plans to acquire Oracle products and services, solutions built on Oracle technology, and related products and services, from Oracle or a distribution partner. For more information please contact valuenet@erpsystems.com.au.
