- Commercial and government

Oracle offers comprehensive, competitive leasing to help you decrease acquisition and ownership costs and accelerate the benefits of Oracle-based solutions.

Affordably Acquire Oracle

Financing and leasing are both easy and affordable ways to acquire Oracle. Like financing, a lease provides access to alternative funding and budgets—which helps you conserve capital and overcome budget constraints. It also improves your ability to budget and forecast effectively, and enables budgeting predictability.

But a lease offers even more flexibility. It requires no upfront investment and can be accounted for as an operating expense. This gives you budget alternatives *and* the lowest cost of entry to Oracle.

Simplify Your Total Acquisition

Oracle leasing solutions are comprehensive and flexible, and we offer quick approvals and simple documentation.

Whether you acquire one product from Oracle or a broad solution from multiple vendors, we offer a single payment structure customized to meet your specific business requirements—for example mapping payments to budgets or to the benefits you receive from your investment. So you enjoy the convenience of acquiring your total solution through one trusted source: Oracle.

Leasing Benefits

- Leverage the lowest cost of entry to Oracle
- Reduce upfront capital requirements
- Utilize multi-year operating budgets
- Improve budgeting predictability
- Preserve existing credit lines
- Enjoy end-of-term flexibility
